PRODUCT CHANGE NOTIFICATION

PCN002/2023 – HxGN AgrOn Piloto Automatico Eletrico Simulador Ti5/Ti7 Vendavel ECUv4

1. PCN OVERVIEW

PRODUCT AFFECTED	04965, 05640, 05733, 07670, 07671		
NEW PART NUMBER (if applicable)	08061, 08062, 08063, 08064, 07882		
TYPE OF CHANGE	<input checked="" type="checkbox"/> MAJOR	<input type="checkbox"/> MINOR	<input type="checkbox"/> OBSOLESCENCE
CHANGE AFFECTS	<input type="checkbox"/> FORM	<input type="checkbox"/> FIT	<input type="checkbox"/> FUNCTION
	<input type="checkbox"/> RELIABILITY	<input checked="" type="checkbox"/> OTHER	

2. DETAILED CHANGE INFORMATION

New HxGN AgrOn Piloto Automatico Eletrico Simulador Ti5/Ti7 Vendavel ECUv4 structures for after-market were created with the Electronic Controller Unit – ECU HxGN AgrOn ECU Piloto Automatico Eletrico v4.x (07874). This new ECU has a different pinout from the current ECU (03916 - HxGN AgrOn ECU Piloto Automatico Eletrico v3.3.X), but for these structures the cable used in both versions are the same.

The new structures created already have included all cables and items for the Electrical Auto Steering Control. The following table shows the structures created and their respective current structure.

Current structure	New structure	Description
04965	08061	HxGN AgrOn Piloto Automatico Eletrico Simulador Ti7 Vendavel BRA ECUv4
05640	08062	HxGN AgrOn Piloto Automatico Eletrico Simulador Ti5 Vendavel BRA ECUv4
05733	08063	Simulador Base para Ti7 Track Controller sem Display Ti7 ECUv4
07670	08064	Simulador Base para Ti5 Track Controller sem Display Ti5 ECUv4
07671	07882	Kit Complemento Piloto Eletrico para Simulador ECUv4

All structures (current and new) will be marketed at the same time, depending on the ECU available.

3. IDENTIFICATION OF AFFECTED PRODUCT

The structures can be identified by the part number codes.

4. REASON FOR CHANGE

The global shortage of some components has made unfeasible the assembly of the current ECU (04140) in quantity enough to supply our demand. For this reason, Hexagon decided to use the new ECU (07875) to guarantee the supply for all customers without impairing the delivery time.

5. IMPACTS OF THE CHANGE

Two versions of the same product (with different ECU) will be available, and this must be managed by Hexagon.

6. PROPOSED FIRST SHIP DATE: Q1/2023

The Proposed First Ship Date is the forecasted date that a customer may expect to receive the changed products. Both versions can be mixed until the old stock ends.

7. MORE INFORMATION

For more information, please contact your Hexagon Agriculture sales/technical support person.
