PRODUCT CHANGE NOTIFICATION

PCN020/2022 – HXGN AGRON AUTO STEERING READY CONTROL AFM

1. PCN OVERVIEW

PRODUCT AFFECTED	05523, 05524, 05553, 05554, 05560		
NEW PART NUMBER (if applicable)	07888, 07889, 07890, 07891, 07892		
TYPE OF CHANGE	<input checked="" type="checkbox"/> MAJOR	<input type="checkbox"/> MINOR	<input type="checkbox"/> OBSOLESCENCE
CHANGE AFFECTS	<input type="checkbox"/> FORM	<input type="checkbox"/> FIT	<input type="checkbox"/> FUNCTION
	<input type="checkbox"/> RELIABILITY	<input checked="" type="checkbox"/> OTHER	

2. DETAILED CHANGE INFORMATION

New HxGN AgrOn Auto Steering Ready Control structures for after-market were created with the Electronic Controller Unit – ECU *HxGN AgrOn ECU Piloto Automatico Hidraulico v4.x* (07875). This new ECU has a different pinout from the current ECU (*04140 - HxGN AgrOn ECU Piloto Automatico Hidraulico v3.3.X*).

The new structures created already have included all cables and items for the Auto Steering Ready Control. The following table shows the structures created and their respective current structure.

Current Structure	New Structure	Description
05523	07888	HxGN AgrOn Piloto Automatico Steering Ready sCon ECUv4
05524	07889	HxGN AgrOn Piloto Automatico Steering Ready EMEA ECUv4
05553	07890	HxGN AgrOn Piloto Automatico Steering Ready HDv9 ECUv4
05554	07891	HxGN AgrOn Piloto Automatico Steering Ready DTv4 ECUv4
05560	07892	HxGN AgrOn Piloto Automatico Steering Ready CPCv9 ECUv4

All structures (current and new) will be marketed at the same time, depending on the ECU available.

3. IDENTIFICATION OF AFFECTED PRODUCT

The structures can be identified by the part number codes.

4. REASON FOR CHANGE

The global shortage of some components has made unfeasible the assembly of the current ECU (04140) in quantity enough to supply our demand. For this reason, Hexagon decided to use the new ECU (07875) to guarantee the supply for all customers without impairing the delivery time.

5. IMPACTS OF THE CHANGE

The cables created for ECUv4 are compatible with the ECUv3, **but the cables for ECUv3 are not compatible with the ECUv4.**

Two versions of the same product (with different ECU) will be available, and this must be managed by Hexagon.

6. PROPOSED FIRST SHIP DATE: Q1/2023

The Proposed First Ship Date is the forecasted date that a customer may expect to receive the changed products. Both versions can be mixed until the old stock ends.

7. MORE INFORMATION

For more information, please contact your Hexagon Agriculture sales/technical support person.
